EDUCATION

SRM INSTITUTE OF SCIENCE AND TECHNOLOGY, KATTANKULATHUR

B.Tech
COMPUTER SCIENCE AND
ENGINEERING CORE

2024-2028

- 4th SEM GPA : 8.43
- CGPA : 8.0

VELAMMAL BODHI CAMPUS, CHENNAI

2022-2024

CLASS XII : 69.2%

THE PSBB MILLENNIUM SCHOOL, CHENNAI

2018-2022

CLASS X : 67.2%

SKILLS

LANGUAGES :

● C ● C++ ● JAVA ● Python

WEB :

● HTML ● CSS ● JavaScript

COURSE WORK

UNDERGRADUATE

LINEAR ALGEBRA
DATA STRUCTURES AND ALGORITHMS
OPERATING SYSTEMS
COMPUTER ORGANIZATION AND
ARCHITECTURE
INTERNET OF THINGS
ARTIFICIAL INTELLIGENCE
DESIGN AND ANALYSIS OF
ALGORITHMS
PROBABILITY AND QUEUEING THEORY

EXPERIENCE

KAASHIV INFOTECH

COMPUTER SCIENCE ENGINEERING INTERNSHIP

JUNE 2025 – JULY 2025

- Practical exposure to software development concepts and real-time project workflows.
- Worked on coding, debugging, and implementing basic application modules, strengthening problem-solving and programming skills.

AICTE- EDUSKILLS | VIRTUAL INTERNSHIP

Artificial Intelligence and Machine learning by AWS academy

JANUARY 2025 – MARCH 2025

- Fundamental knowledge in AI and Machine Learning concepts, algorithms, and applications.

Cloud by AWS academy

JULY 2025 – SEPTEMBER 2025

- Developed a strong understanding of core cloud concepts, service models, and cloud infrastructure fundamentals.
- Strengthened practical knowledge using AWS cloud platforms.

Android Developer by Google for Developers

OCTOBER 2025 – DECEMBER 2025

- Built a strong foundation in Android app development, activity lifecycle, and user interface design.

Zero Trust Cloud Security by Zscaler

JANUARY 2026 – MARCH 2026

- Fundamental knowledge in zero trust architecture, cloud security principles, and secure access management.

MEMBERSHIP

INSTITUTION OF ENGINEERS OF INDIA(IEI), KOLKATA, INDIA

APRIL 2025 – PRESENT

CERTIFICATIONS AND ACHIEVEMENTS

HACKATHON 10.0

TOP 33 TEAMS

DEVELOPED AN AI-POWERED FULL-STACK HEALTH AND WELLNESS PLATFORM THAT UNIFIES MENTAL AND PHYSICAL HEALTH TRACKING THROUGH MOOD, SLEEP, ACTIVITY, HEART RATE, AND STEP MONITORING.

NPTEL :

- FUNDAMENTALS OF OBJECT ORIENTED PROGRAMMING 72/100
- PROGRAMMING IN JAVA 76/100

THALIR'25

TOP 20 TEAMS

AN IDEATHON PROMOTED TOWARDS ENTREPRENEURSHIP AND STARTUP IDEAS.

CO-CURRICULAR & EXTRAS

- CREATIVE ASSOCIATE AT FUTURIX – OFFICIAL CLUB OF C.TECH ASSOCIATION, SRMIST.
- STORY TELLING
- PROJECT MANAGEMENT

PROJECTS

BUZZ-COLLEGE BUS TRACKING APP

- A smart college bus tracking application to provide real-time live bus location tracking for students and staff.
- Integrated route mapping and bus stop visualization to help users easily identify boarding and drop points.
- Implemented location-based navigation support to guide users from their current position to the nearest bus stop.

MULTI ALGORITHM PATHFINDING VISUALIZER

- An interactive web-based application to visualize how different pathfinding algorithms determine the route from a start node to an end node in a grid-based environment under our AI course work.
- Implemented core algorithm logic, frontend interactions, and backend functionality using JavaScript.

HEAEL – AI POWERED HEALTH COMPANION

- AI-powered full-stack health and wellness platform that unifies mental and physical health tracking through mood, sleep, activity, heart rate, and step monitoring.
- Built a responsive web/mobile-friendly interface with real-time dashboards, wellness insights, and interactive UI components using React, HTML, CSS, and JavaScript.
- Implemented real-time health monitoring features including camera-based heart rate detection (PPG) and sensor-based step counting for live user wellness tracking.

SPAREV – SMART PARKING & EV CHARGING PLATFORM

- Full-stack web application that integrates smart parking reservation and EV charging management into a single platform for academic DBMS coursework. Built a responsive web/mobile-friendly interface with real-time dashboards, wellness insights, and interactive UI components using React, HTML, CSS, JavaScript, React, Vite, TypeScript, Node.js, Express, Prisma ORM, and MySQL with a structured database layer.

RESEARCH

UNDERGRADUATE RESEARCH OPPORTUNITIES PROGRAM

Zero-Trust Based Network Access Control for Campus IoT Devices | ZT-IoT-Guard

Me and my friend are working on a project under a professor where the system will identify IoT devices based on basic attributes and enforce access policies that determine which devices can communicate with specific services or networks. A policy framework defining permitted and restricted device communications and Logs and visual dashboards showing network access decisions.

COA Survey Paper: Modern CPU Architecture | CPU VS GPU

- Researched and presented a comparative survey on Intel and AMD modern CPU architectures
- Covered:
 - Instruction sets
 - Microarchitecture designs
 - Performance benchmarks
